

HOW TO PLAY! FOODIE FIGHT

Recipe for Play

Serves 2 to 6 players or teams

OBJECT OF THE GAME

To fill a game board with tokens collected for correctly answering questions in each of six categories: **Foodiesphere, Food Stars, Company's Coming, Lab & Field, Dining Out,** and **What's Cooking?** To win, a player (or team) must be the first to fill in all the spaces on the game board.

INGREDIENTS

6 game boards, 168 trivia cards, 1 color die, 108 scoring tokens, 1 categories card

SETTING THE TABLE

Each player or team gets one game board. Each player or team rolls the die; the first player or team to roll green goes first.

PLAYING WITH FOOD

(Whether playing as individual players or in teams, the same rules apply.)

On your first turn, roll the die. The colors on the die correspond to the categories on the trivia cards. Another player or team draws the first card from the box and reads the question from the corresponding category. Answers are on the opposite side of each card. If you answer your first question correctly, place a scoring token on the corresponding category on your game board and roll the die for another turn. If you answer incorrectly, play passes to the player on your left. When done with the question, place the card in the back of the box, behind the other cards.

TABLE MANNERS

Players will agree on how long a person has to answer a question and how specific the answer must be.

WINNING THE FOODIE FIGHT

To win, a player (or team) must be the first to fill the game board with three tokens in each category.

FINE POINTS

If you roll a color for a category that has been closed out (three questions answered correctly,) you must still answer that question before rolling again.

FAST FOOD

For a faster version of the game, players or teams need only to collect one (or two) scoring tokens per category to win.

THE CATEGORIES

FOODIESPHERE Food people, world cuisines, and food places

FOOD STARS Food on film and in print, music, and art

COMPANY'S COMING Party planning, table etiquette, and wine and food pairing

LAB AND FIELD Cooking science, nutrition, and food production
