

SONG LIST WORKSHEET

It's important to provide some guidance for your DJ or band about what kinds of music you like and what kinds you dislike. You also need to convey the special songs you want played at the wedding, such as for the first dance and the father/daughter dance. You can do this by providing with a song list. Don't be shy—it's okay to list music you refuse to have played (exhibit A: The Electric Slide!).
